WS2: CLLD Delivery

Making it simple and efficient!

7th June 2023, Timisoara

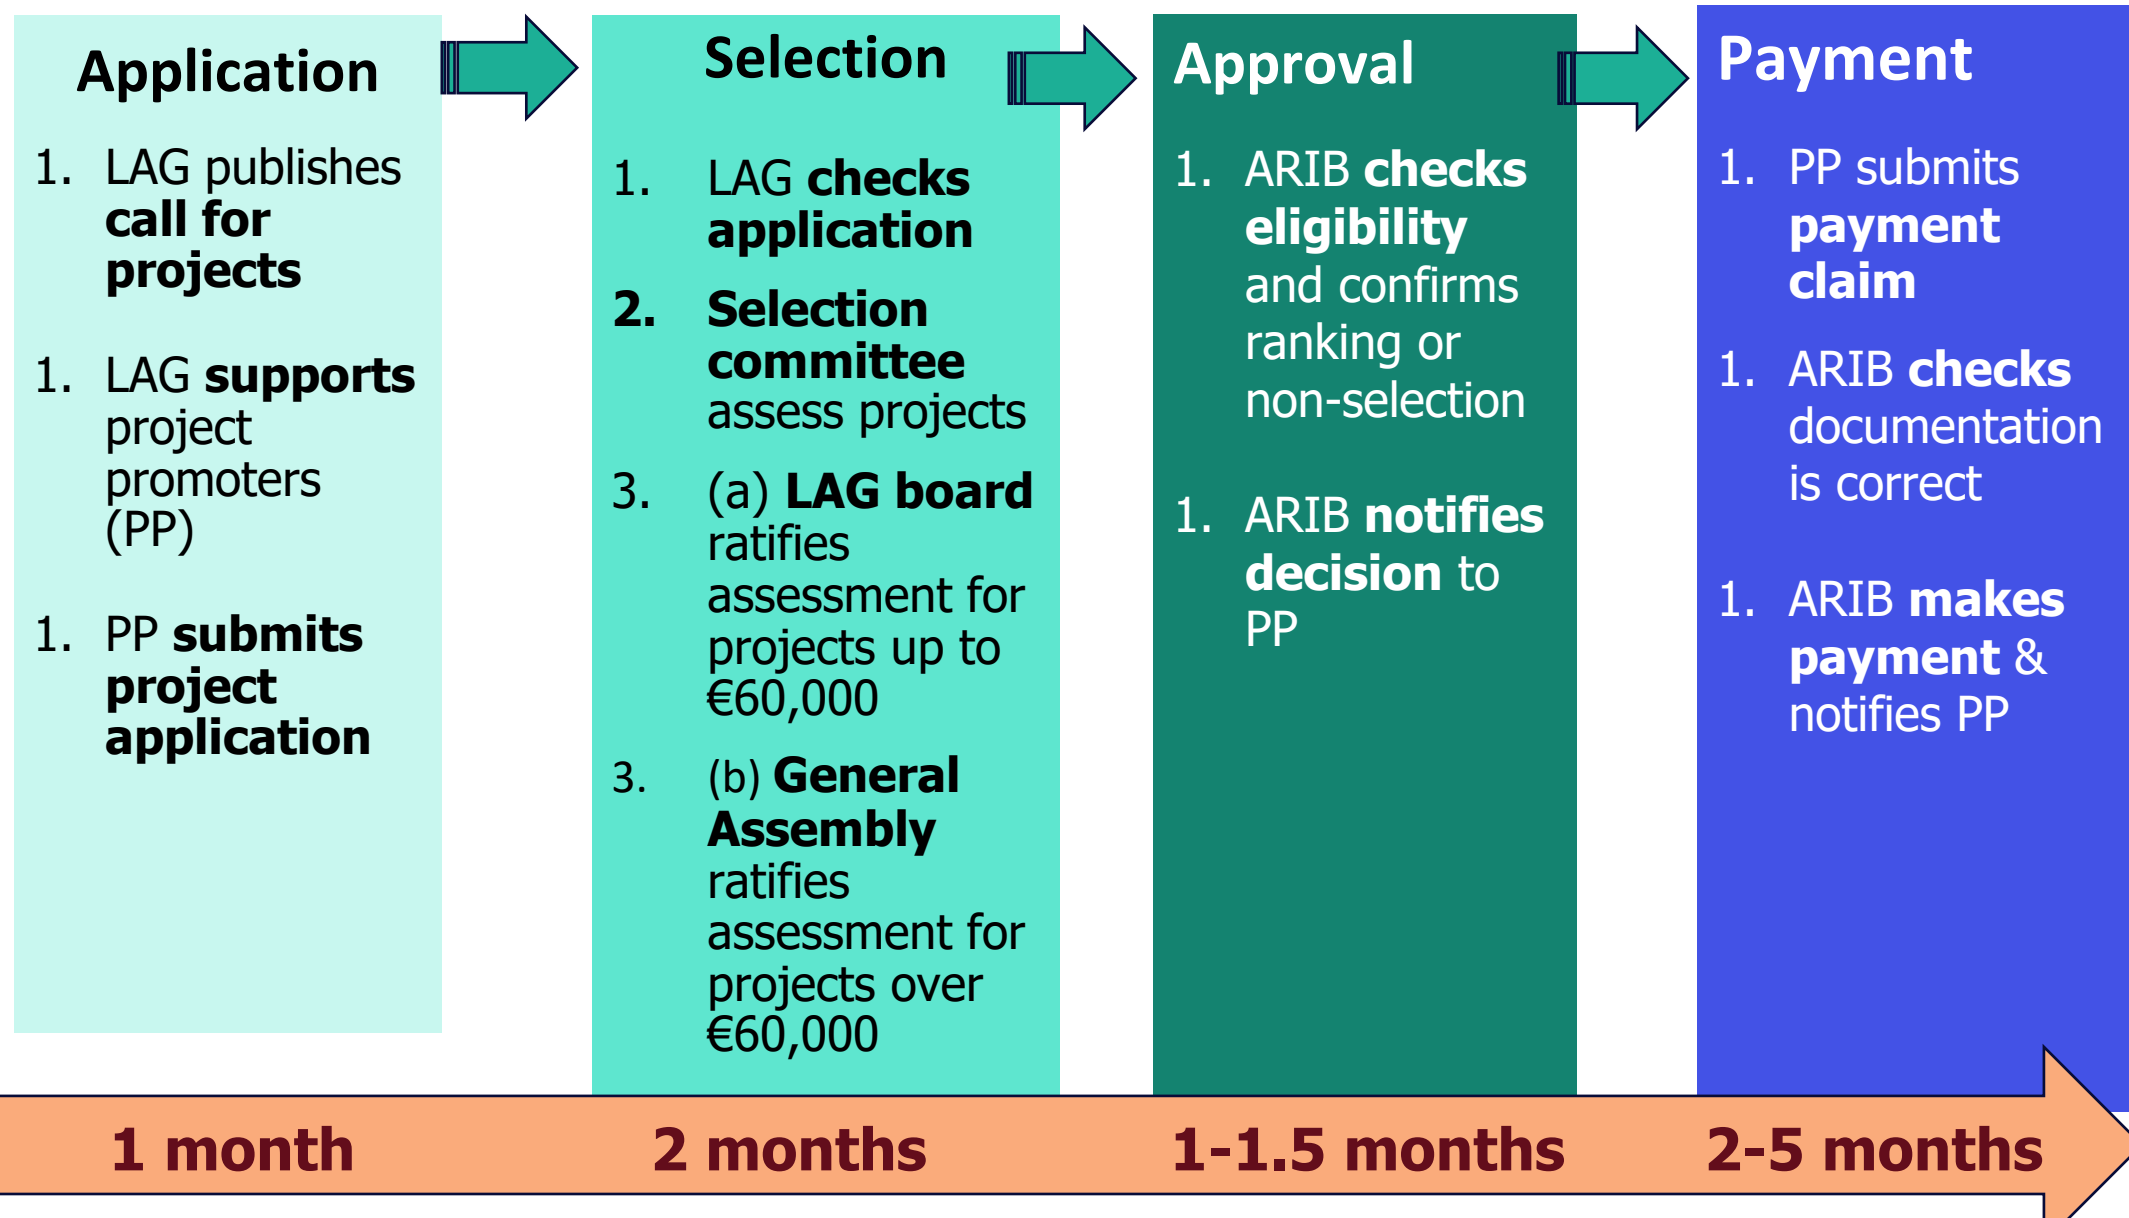

Why make CLLD delivery simple?

Be ready to discuss!

Estonia is an example of a simple and efficient CLLD delivery

In some countries, an applicant can wait for 2 years to get project approval 😞

Application

1. Project promoter (PP) **presents project summary** at any time
1. LAG **checks summary**
1. LAG board meets to **pre-select project**
1. PP submits formal **project application**

2-17 months

Selection

1. LAG **checks application** & emails to Region
1. Region checks application is complete & **prepares eligibility report**
1. LAG board **officially selects project.**

3-10 months

Approval

1. Region **officially approves** the project
1. Region **prepares & signs the decision** and informs the project promoter

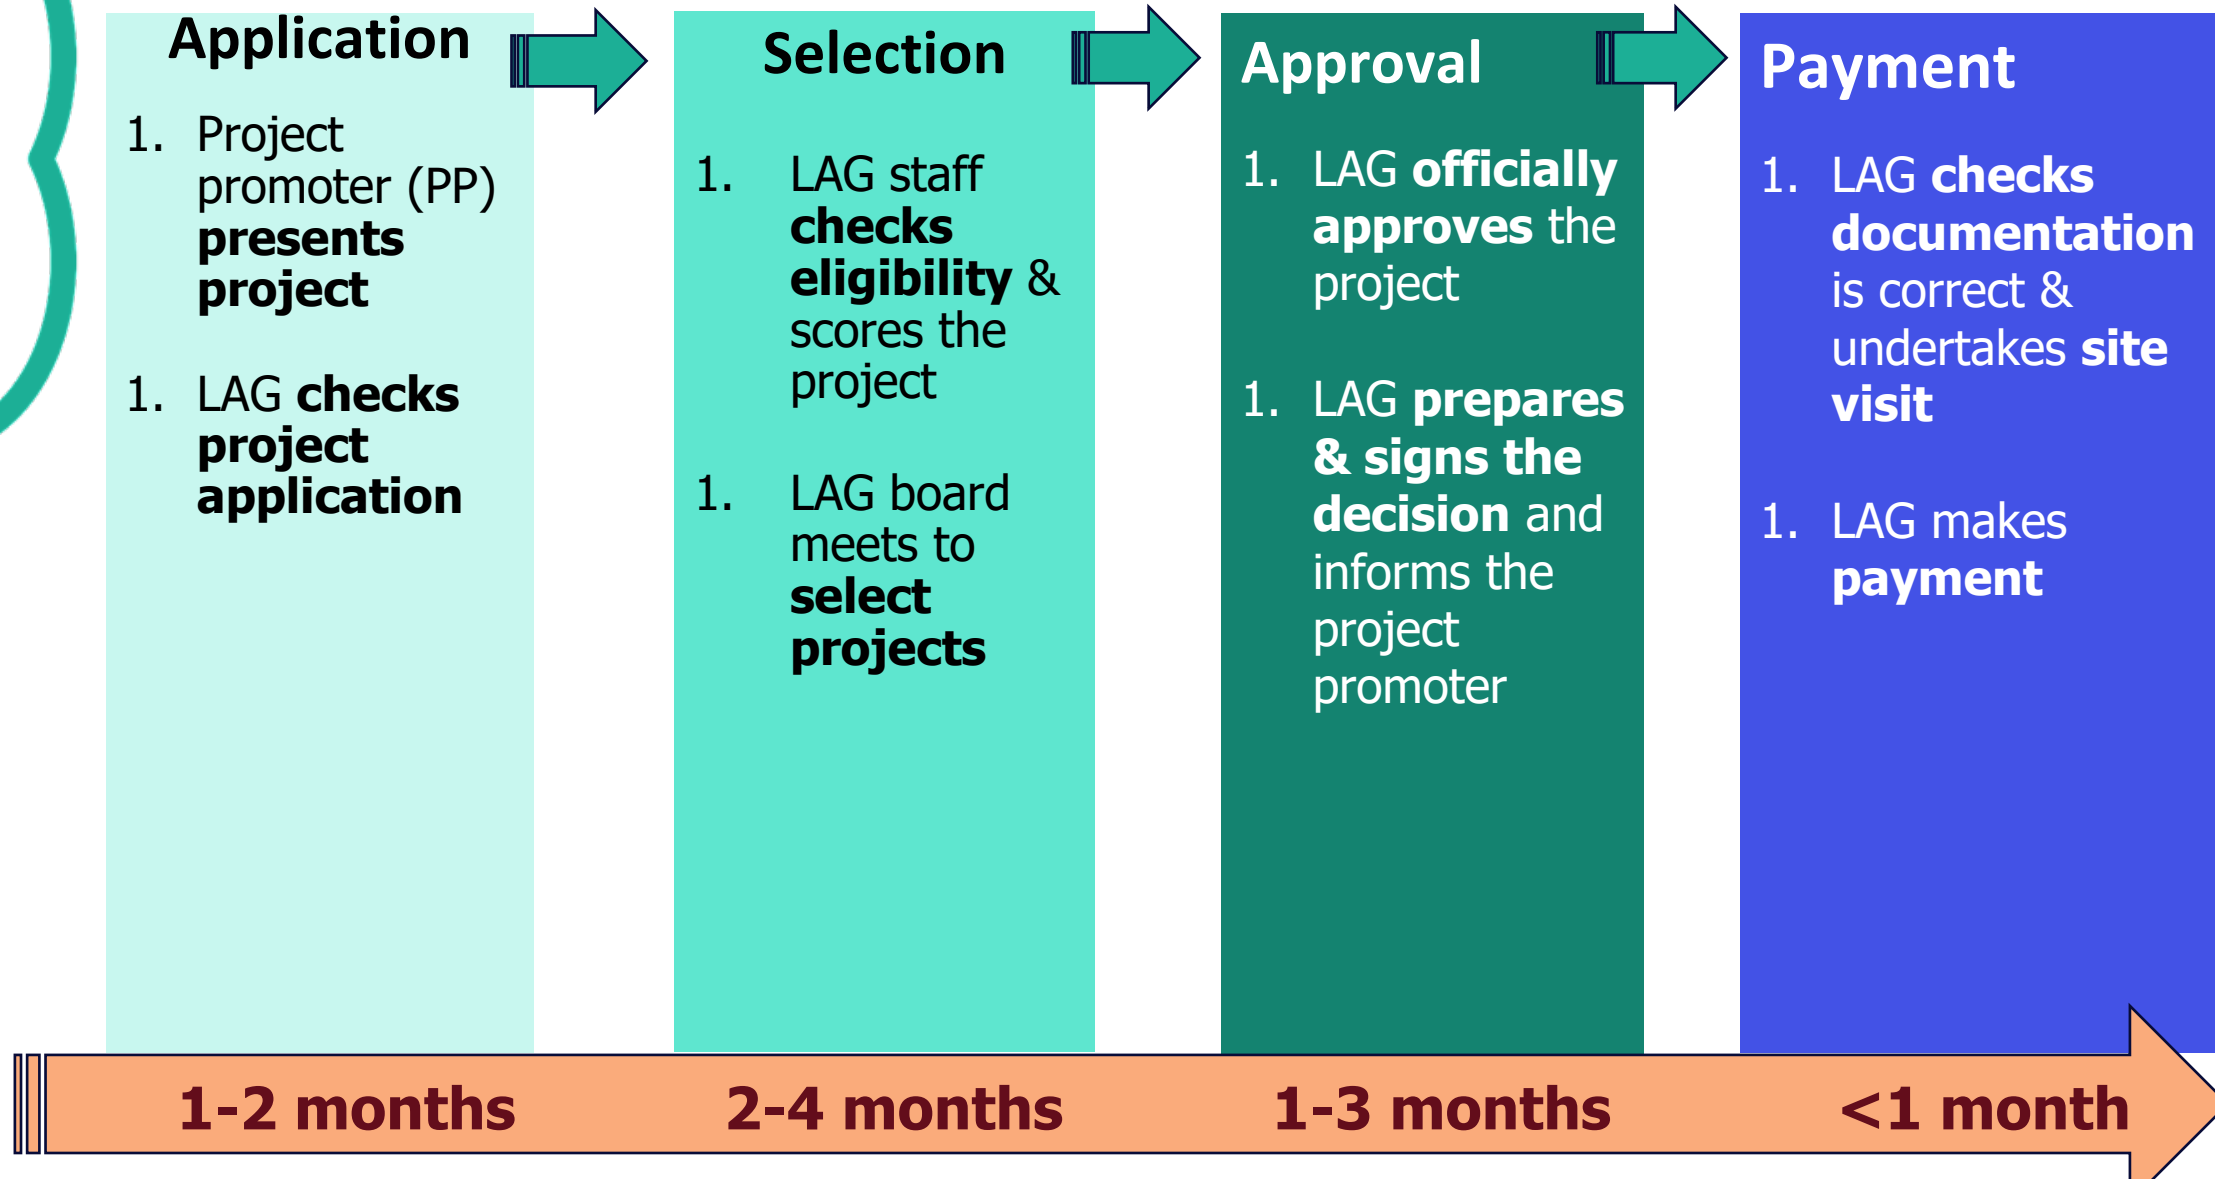

4-11 months

Payment

1. PP submits **payment claim**
1. LAG **checks** documentation is correct
1. Region checks documentation & **authorises** payment
1. Paying Agency (PA) checks coherence & **makes payment**

2-5 months

In Greece EMFF LAGs are Intermediary Bodies (IBs) so can approve projects and make payments themselves

Discuss in groups

Why make CLLD delivery simple?

Objectives?

Transparency?

Resources?

**Added
value?**

**Target
audience?**

Build your delivery system!

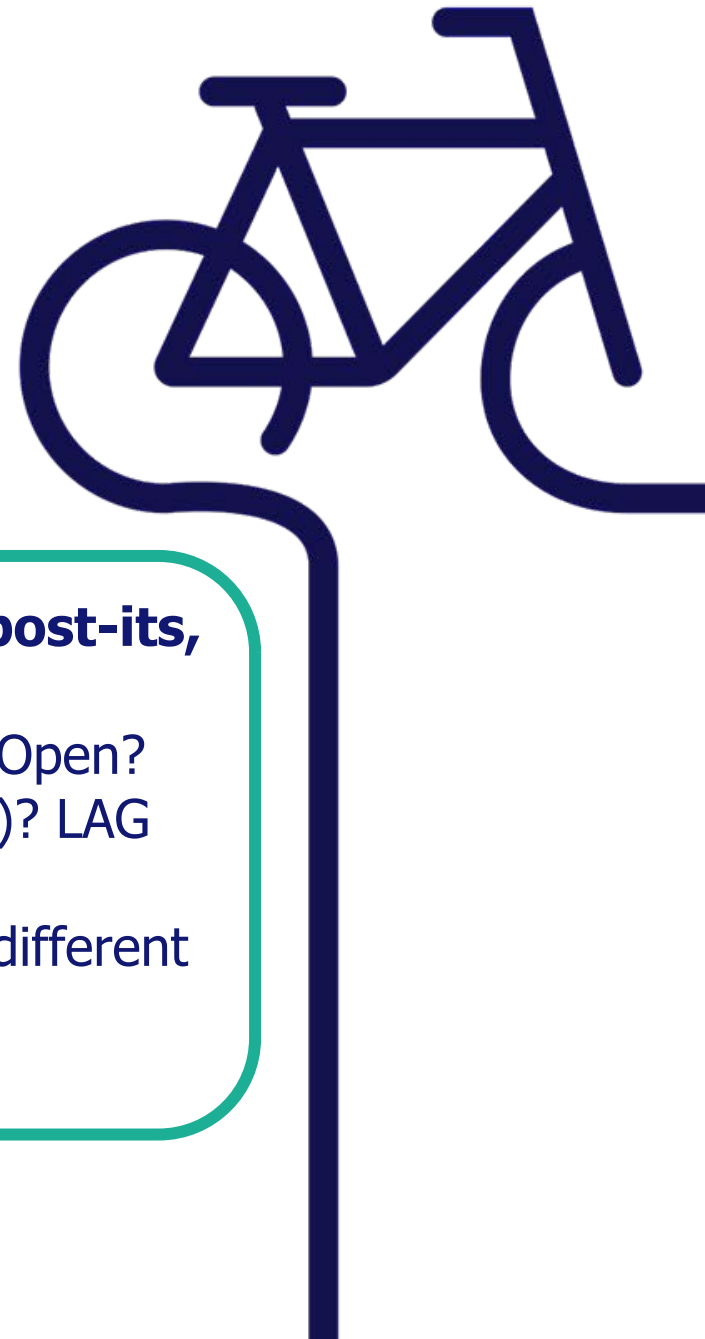

- ✓ Simple
- ✓ Efficient
- ✓ Quick
- ✓ Transparent
- ✓ Robust

1. Order the steps!

2. Who does what?

3. Any details? ➡ post-its, e.g.

- Calls for projects: Open? Closed (how often)? LAG decides?
- How long will the different steps take?
- etc.

Thank you
